## SCOTSDALE AMERICAN LEGION POST HOLDS ROUSING SOCIAL SESSION; ITS FUTURE IS ROSY

T. E. Shadle, Chairman of Allegheny County Legion, Makes an Address.

### FINE PROGRAM AND LUNCH

From The Weekly Courier.  
SCOTSDALE, Oct. 15.—If the enthusiasm of Monday night's meeting may be taken as a criterion the success of the American Legion in Scottdale is assured. From the first number on the program to the conclusion of the delightful luncheon served by the Entre Nous Club, the program was enjoyed to the limit.

The program itself was a typical Y. M. C. A. War Work association one. The way Rastus Jones did the buck and wing dances, brought back memories of camp life to every fellow present. Perhaps Rastus reaped more coins last night than he at first expected, but nevertheless his work was loudly applauded.

The address by Mr. Shadle, chairman of the Allegheny American Legion could be termed a report of the Harrisburg convention of last week. In his address he mentioned a few of the resolutions passed at the convention. The first was that of sending back all allies eligible to the army draft, who claimed exemption after having withdrawn their first citizenship papers. The second was the question of securing insurance allotments, etc., as well as securing jobs for the men. The resolution pertaining to the labor question was amicably settled, when it was fully explained that the American Legion was not against the working man nor against capital, but that it stood for law and order and clean-cut Americanization. The final resolution which he discussed, was that concerning the President of the Irish Republic. He stated also in this connection that there was nothing in this resolution showing that the Legion was against the people of Ireland or the Republic but against the so-called president, who when England claimed him for the army, secured exemption because he was an American citizen and when America claimed him, secured exemption because he was a citizen of England.

The three-round bout between McGovern and Luper, while not for blood, so to speak, was very good.

The address by Mr. Herring on "The Value of the American Legion" was of an educational nature and very valuable to the local post.

The two songs by Miss Margaret Rollins were enjoyed by all and Miss Rollins found a place in the hearts of the local fellows as she has in the past with the many audiences before whom she has sung.

The election resulted in the selection of Joe Welsh, vice president and Clarence Durstine, treasurer.

Through the courtesy of the manager of the Scottdale theatre, a Pathe Weekly was shown along with "The Life of General Pershing." While this two and one-half hour program was going on, the gymnast of the Y. M. C. A. looked similar to what might be described as "lifting a barage" and many men had to "come up for air."

The President of the Legion, Vincent R. Smith, explained the error noted in last week's Observer, which stated that the meeting was to close the campaign for members for the Y. M. C. A. This, Mr. Smith said, was very unfortunate, not only because it was incorrect, but because the Y. M. C. A. had been at the service of the American Legion all along and had continually thrown open its doors for the activities of the Legion and they were grateful for it.

The meeting closed by the members present going to the mess hall and helping themselves to sandwiches, ice cream and coffee, served by the Entre Nous Club.

One of the speakers made the remark "The spirit of the American Legion can only be kept going by keeping the men busy" and because of the numerous enthusiastic supporters of the Legion here, it is hoped that monthly programs similar to that of last night may be given.

Excellent music was furnished during the evening by the Scottdale Military band.

High Prices Cannot Keep Up Forever.  
The mercantile market must drop. It is up to the retailers all over the country to promote this movement. They have already started it in the West, selling at five per cent profit, seven per cent profit, and then again a period of from five to ten days without profit, and when this idea or movement spreads until it reaches all nooks and corners of the United States, it will bring the manufacturers, grocers and creators to understand the necessity of sacrifice. Some have already done so even in the manufacturing line and with their cooperation and the help of other retailers with this same idea, we offer this opportunity to buy for 10 days

Missionary Meeting.  
The Misses Walters entertained the Young Peoples Missionary society of the United Presbyterian church at their Parker avenue home last evening. The house was handsomely decorated in Hallowe'en trimmings, and refreshments were served in keeping with the season.

Hallowe'en Plans.  
A meeting was held in the borough building Monday night to arrange for a Hallowe'en celebration to be held in Scottdale Friday, the 31st. Last year, on account of the influenza epidemic, there was no celebration. This year, however, there is no obstacle in the way and officers were elected, committees appointed and the ball started rolling. The officers are: President, Burgess B. C. Fretts; secretary, W. B. Canlin. The following committees were appointed: Finance, F. R. Parker, J. B. Hurs, Lee Goldenson, Stanley Rowe and Thomas H. Rutherford; publicity, J. Howard Cramer, W. B. Canlin, M. E. Minert, Frank McCudden and James Bates; prizes, C. P. Lewis, Alex. Peterson, W. H. Forst and W. S. Goshorn; music, William Ferguson, to choose his own aides; parade, Edward Anderson, Arthur Newman, R. E. Willis, Robert Gilchrist, Walter Haines, Joseph McElvaine, Edward McClain, H. R. Parker and Claude Murphy; decorating, Joseph M. Steiner, I. H. Murray, J. R. Dickerson, M. D. Emory, J. J. Finer, W. W. Hines and S. D. Wisniewski; public safety, police and firemen in charge of Chief of Police McCudden.

Another meeting will be held at the borough building on next Monday evening, October 20, when the committees are asked to report.

Hunters Aroused.  
Hunters in this community out looking for wild duck on Monday were very much excited about quail and pheasant seen at Cotton's Bottom. One of the hunters stated that a man without a license had fired at the birds.

**Drinking a Glass of Hot Water is a Splendid Habit**

Cleanse and Sweeten the System Each Morning and Wash Away Poisonous, Stagnant Matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before eating more food.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gasses, waste and acidity and gives one a fine appetite for breakfast. A quarter pound of limestone phosphate costs very little at the drug store, but is enough to make anyone who is bothered with biliousness, constipation, stomach trouble, or rheumatism an enthusiast on internal sanitation.

MRS. PAULINE DESANDER

After you with new life and energy; eradicates malaria poisoning; stimulates the sluggish liver in action; corrects constipation and regulates the bowels; in fact, assists a nature where assistance is needed.

The following signed statement from Mrs. Pauline Desander, who lives at No. 4514 Wertz alley, and has many friends in this city, will be of interest. She said:

"For 15 years I have been troubled with my stomach and I was able to digest very few things. I dreaded to sit down to the table because it caused me such pain to take anything into my stomach. I could not sleep at night, I was so nervous, and would be all tired out in the morning. In fact, I was all run down and had no ambition or energy. I had heard so much of Plant Juice and read where people had been cured of the same complaint I had, so decided to try it for myself. When I started to take it I knew that this was just the medicine that I had been looking for, as it relieved me at once. My stomach is now in fine condition and I am cured from the headache from which I suffered and never felt better in my life."

Since taking some of your Nerv-Worth I have improved in every way. Have a good appetite, sleep fine and get up in the morning feeling rested. I thank you for Nerv-Worth.

## LODGE WARNS OF JAPANESE EMPIRE IN THE FAR EAST

Continued from Page One.

Germany and Austria used in their armies the man power of the 26,000,000 Slavs, who were utterly opposed to German domination, to promote their schemes of conquest. Japan will be enabled to construct in that way a power which will threaten the safety of the world. She is already advancing in Siberia and with her control there and China developed as she intends to develop it, she will threaten Europe.

"But the country that she would menace most would be our own. And unless we carefully maintain a very superior navy in the Pacific the day will come when the United States will take the place of France in another great war to preserve civilization."

"But there is one other reason even more decisive to my mind than this. It is a great wrong, this giving Shantung over to the control of Japan. Morally it is indefensible, and it is no answer to say that we failed to object to the German seizure of Shantung. As a matter of fact the open door policy of Mr. Hay was the reply to the German movement and for the time arrested it. The President has gone out of his way to say that just so we could trade with these stolen territories we are willing to let them be stolen. This attack upon the dead is the most repulsive of all those attacks which the President has seen fit to make. If ever there was a disinterested policy it was that of Mr. Hay. We go nothing from it whatever; that all the world did not get. The intention of the policy was to save China and prevent further extension of foreign acquisitions of Chinese territory. But even if it had been otherwise, it would be no answer to what it is now proposed to do by this treaty, to say that we should have interfered in behalf of Korea in 1904. Two wrongs never make a right."

"Few realize the significance or ultimate effect of the Shantung award. Senator Lodge declared, pleading as a parallel to Japan's economic rights, the situation in Great Britain had similar privileges in this country. 'The comparison that most naturally springs to one's mind,' he said, 'is the assumption that Great Britain, with her control of Canada, which is a less rigorous control than Japan exerts over Manchuria or Eastern Inner Mongolia, were to hold under her control the port of New York, all the wharves, all railway terminals, including our principal railroads, the management of our central customs-house, post office, cable terminals, telegraph and telephone administrations, the absolute ownership and control of the Pennsylvania railroad through to Chicago, with the right to extend it at least as far as Kansas City; the prior right to finance or build and furnish supplies to all railroads of important lines, present and future, in that territory; and any other improvements that our people through this government, might contemplate in any of that territory north of Washington, and east of Chicago, provided Great Britain would perform this work for us as cheaply as any other responsible bidder."

"Before according to this section of the peace treaty the Senate should carefully note what such a grip of Great Britain would mean primarily to the United States, but to all other nations of the world wishing to do business with the United States."

Emphasizing that the principal argument in defense of the Shantung award was that China would lose nothing as Japan merely secured the rights formerly held by Germany, Senator Lodge said:

"People shut their eyes to the moral issue and the methods employed by Japan to get this claim, and do not realize its economic and political significance. Attention is frequently called to the fact that the German concession does not include the entire province of Shantung, some 35,000 square miles (about the size of Illinois) with a population of some 40,000,000, but only the territory surrounding the Bay of Kiaochow, some 200 square miles in extent, with a population of 10,000,000 and it is further added that Japan has promised to restore to China the political rights over even this territory of Kiaochow, retaining only the economic rights. The Japanese seem to have scrupulously avoided calling attention to the most significant single fact; that is, that in the agreement, which they forced China to accede to in connection with this settlement, they reserved a Japanese settlement selected by themselves, to remain under the absolute control and direction of Japan."

Japan's settlement rights, the majority leader stated, include wharves, railroad terminals, telegraph and cable offices; postal facilities, customs houses and exclusive railroad development rights into the heart of China and outside of Shantung.

"Certainly this is no very small hold on 40,000,000 people," he argued.

"After the outbreak of war the Japanese, Mr. Lodge said, 'apparently strengthened their methods of closing an open door and have become more aggressive, if not to say insolent, in their

## BETTER THAN CALOMEL

Thousands Have Discovered  
Dr. Edwards' Olive Tablets  
Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success. They do all the good that calomel does but have no bad after effects. No pain, no griping, no injury to the lungs or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

## NUXATED IRON A DRIVING FORCE BEHIND KEEN SUCCESSFUL MEN AND WOMEN

When you think of the successful men and women you know—people who are doing things worth while—you will find that they possess force, vim and energy—the kind that simply brim over when the blood is filled with iron. Nuxated Iron, by enriching the blood and creating new red blood cells, strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed force and energy into the whole system. Three million people use it annually as a tonic, strength and blood-builder.

### MAKE THIS TEST

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form.

treatment of the Chinese."

In an effort to obtain control of China, Japan has almost forced loans on her, Mr. Lodge declared. "It is the deliberate opinion of both foreign and other observers," he said, "that threats and bribery were deliberately used. The purpose clearly was to tie up in Japanese hands the best of the resources of China at a time when other nations were to be occupied that they could not interfere. Unless some change is made in these records, China will be seen to be largely mortgaged to the Japanese in such a way

and to such an extent that the already acquired rights of other nations will be seriously infringed."

In conclusion, the Republican leader urged adoption of the amendments transferring to China the rights in Shantung given to Japan by the treaty. Award of those rights to Japan, he said, was "a wrong to man and to the cause of freedom and justice."

## CERTAIN RELIEF FROM BRONCHIAL ASTHMA

Simple Home Treatment Makes Breathing Easy.

Just because you start the day tired, listless, worn-out from loss of rest and the difficult breathing of bronchial asthma—do not think you have to stay this way all day.

Be strong and well, breathe clearly and easily again by using this simple treatment known as Oxidase, the prescription of a Worcester, Mass., physician.

For any form of Asthma where the bronchial tubes are irritated, the breathing short and difficult, its healing, relieving action is really wonderful. Sufferers who expect death at night and who gasp for a good breath will appreciate the relief and comfort Oxidase gives.

Oxidase is a tablet made from essential oils which, when the patient dissolves in the mouth, almost immediately soothes the irritation, clears out the choked up air passages and enables the sufferer to breathe easily and get a real comfortable night's sleep.

It is sold by A. A. Clarke and leading druggists who agree to refund the full purchase price if the first package does not give relief. Those who do not obtain satisfactory relief, Asthmatic sufferers should give Oxidase a trial. It is harmless and inexpensive.—Adv.

### 11 EGGS DAILY FROM 17 YOUNG PULLETS

Mrs. Niles Started Her Pullets Laying at 6 months old. Tells How.

"Early in November, I bought a package of Don Sung and started giving it to 17 May Pullets. In the first 30 days, they laid 131 lovely eggs, and I got 5 cents a piece for them. All through December, I got 11 to 13 eggs a day."—Mrs. E. S. Niles, R. F. D. 2, Luerns, Ind.

Mrs. Niles, like thousands of others, has found how to start young pullets laying and keep them laying all winter. The same method gets the eggs from moulted hens. Whether or not this seems possible to you, try this plan at our risk.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself, pay you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, helps her through the moult, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Brown-Dugger Co., 323 Columbia Bldg., Indianapolis, Ind.—adv.
